

Protect yourself from the unexpected cost of an accident

Even with health insurance, an accidental injury can cost you thousands of dollars. Lost wages from missing work, health insurance deductibles and daily living expenses can create long-term financial problems. Accident insurance helps cover the added costs you may face following an injury.

The Accident Protection Plan supports your health plan

If you have a covered injury during the plan year and submit a claim, the Accident Protection Plan will pay you a cash benefit directly. Any payment you receive is in addition to the benefits your health plan gives you. Plus, you don't have to meet a deductible to receive the money—and you can use the money any way you want.

A plan that covers more than 80 injuries and services

Here is a short list of injuries and services that may qualify for a benefit payment:

- Ambulance services
- Emergency room and urgent care
- Doctor visits
- Hospital admissions and stays
- Medical appliances (e.g., crutches, wheelchair, walker)
- Rehabilitation
- Burns
- Concussions
- Fractures/dislocations
- Lacerations (cuts)
- Prescriptions
- Organized sports injuries
- Lodging, travel and child care

The plan may also include a wellness benefit. With a wellness benefit, the plan will pay an extra cash benefit for completing certain health screenings, regardless of your results. Please see your benefit summary for a complete list of covered services, benefit payout amounts, limitations and exclusions.
